COURSE SYLLABUS

School Year	2025-2026
Subject	Art
Grade Level	6
Teacher	Christopher Pekarik
Email	cpekarik@dishs.tp.edu.tw

COURSE DESCRIPTION

The Visual Arts embrace technical skills of how to make and cognitive skills of communicating in symbolic language. While the goal of most academic study is to find the right answers, in Art we are looking for the right questions. Creativity culminates from taking imagination through the process of making and experimenting to arrive at a new idea or viewpoint. The goal of the Arts curriculum is to take the student through this process and be able to analyze and synthesize their ideas and apply these new methods of inquiry not only to the Arts and Culture but other subjects as well.

COURSE OBJECTIVES:

At the end of this course, students will be able to:

- Identify the art elements (line, color, texture, value, shape, space and value) and principles of design (rhythm, balance, movement, emphasis, pattern, contrast, etc.) in their artworks and those of artists in history/artists from different cultures.
- Use vocabulary of art terms, identify materials and their uses, and work through processes and studio production techniques, as they create in 2 and 3-dimensions
- Identify the roles of art in reinforcing beliefs and customs in their cultures and other cultures as well, through dialogs in art history, appreciation, aesthetics and criticism.
- Demonstrate experience with works of art (or other curriculum materials), and demonstrate ability to catalog information on them, as well as to make inferences from any such information collected.
- Actively engage in the creative process and communicate their understanding of issues and concepts. In addition, they will work to develop organizational and collaborative skills in investigating issues bordering on their health and social well-being, service to the community, the environment, and the processes (and consequences) of their creation.

PRIMARY TEXTBOOKS AND OTHER RESOURCES: Google slides, appropriate subject related materials from the library.

Differentiated instruction will be used in the classroom in order to cater to the different needs and interests of individual students. Instruction is meant to let students lead, discover, and demonstrate their learning in a variety of ways. Students will be involved in a variety of classroom activities such as discussions, group work, and group/individual presentations.

ADDITIONAL INFORMATION:

Please always check Google Classroom for homework and announcements.

ACADEMIC DISHONESTY:

Academic Dishonesty means employing a method or technique or engaging in conduct in an academic endeavor that contravenes the standards of ethical integrity expected at DIS.

Academic dishonesty includes but is not limited to the following:

- Purposely incorporating the ideas, words of sentences, paragraphs, or parts thereof without appropriate acknowledgment and representing the product as one's work;
- Representing another's intellectual work, such as photographs, paintings, drawings, sculpture, research, or the like, as one's own, including failure to attribute content to an AI.
- Employing a tutor, using Artificial Intelligence without acknowledgment, getting a parent to write a paper or do an assignment, and paying for an essay to be written by someone else and presented as the student's work.
- Committing any act that a reasonable person would conclude, when informed of the evidence, to be a dishonest means of obtaining or attempting to obtain credit for academic work.

Any act of academic dishonesty will result in an automatic zero on the entire assignment/learning task.
