COURSE DESCRIPTION

Kindergarten Art: Exploring Self-Expression, Line, Shape, Color, and Mixed Media

Course Overview: The K-2 Visual Arts course focuses on developing both technical and cognitive skills in art. It emphasizes the process of creativity, where students explore various media and techniques to transform imagination into tangible work. By meeting grades K-G2 Visual Arts benchmarks, students will develop motor skills, use visual techniques to key components of art— composition, subject, and content—and teach them about the different types of line, art critique, and the cultural significance of art.

COURSE OBJECTIVES:

- Summarize how seasons and festivities influence artistic expression across different cultures.
- Recognize patterns, shapes and symmetry in both art and mathematics.
- Recall basic scientific principles that apply to art, such as oil/water resistance, and reactions of different chemicals in paint.
- Compose artworks that incorporate elements from multiple subjects, such as math, science and social studies.
- Explain how different art techniques are used to achieve specific visual effects.
- Create art projects that incorporate learned techniques from various artists and styles studied in class.
- Differentiate between various styles and techniques, identifying the unique elements of each.
- Investigate the relationships between art and other subjects, such as how social studies concepts are represented in artwork.
- Design original art projects that reflect personal ideas, cultural influences, and historical understanding.
- Assess personal artworks and those of others to identify strengths and areas for improvement.

PRIMARY TEXTBOOKS AND OTHER RESOURCES: Google slides, appropriate subject related materials from the library.

Differentiated instruction will be used in the classroom in order to cater to the different needs and interests of individual students. Instruction is meant to let students lead, discover, and demonstrate their learning in a variety of ways. Students will be involved in a variety of classroom activities such as discussions, group work, and group/individual presentations.

ADDITIONAL INFORMATION:

Please always check Google Classroom for homework and announcements.

ACADEMIC DISHONESTY:

Academic Dishonesty means employing a method or technique or engaging in conduct in an academic endeavor that contravenes the standards of ethical integrity expected at DIS.

Academic dishonesty includes but is not limited to the following:

- Purposely incorporating the ideas, words of sentences, paragraphs, or parts thereof without appropriate acknowledgment and representing the product as one's work;
- Representing another's intellectual work, such as photographs, paintings, drawings, sculpture, research, or the like, as one's own, including failure to attribute content to an AI.
- Employing a tutor, using Artificial Intelligence without acknowledgment, getting a parent to write a paper or do an assignment, and paying for an essay to be written by someone else and presented as the student's work.
- Committing any act that a reasonable person would conclude, when informed of the evidence, to be a dishonest means of obtaining or attempting to obtain credit for academic work.

Any act of academic dishonesty will result in an automatic zero on the entire assignment/learning task.
